Hancock County patients in
hospitals receive blood immedi-

supplied by the hospital, with
the knowledge that it will be re-
placed upon notification of use
by the local blood bank. The old
fashioned method of having to
locate donor when blood is need-
ed, then having to transport them
to hospitals, plus, running type
tests has been completely elim-
inated by the fine work and ef-
ficiency of the local Bank. When
blood is needed, a telephone call
is placed and from storage comes

reational Area near Pontiac,
Michigan from June 29 to July
11. The first large national
encampment to be held by the

Mrs. McDonald added, "The
Round-Up will bring to many
thousands of girls deeper appre-
ciation of the scope, variety and
strength of the American heri-
tage."

Junior Safety Patrol Doing Fine Job

The recently commissioned Junior Safety Patrol of Bay High School is doing a fine job in protecting the safety of students of the school, and in patrolling the school area generally.

However, for about 15 years, Alphonse Sanchez, Bay St. Louis Police Chief, has a magnificent job of caring for the students of this school. Until the building of the new Bay Bridge, Uman Avenue was the Highway with extremely heavy and fast moving traffic.

During the years of his patrol, in spite of an open Highway, there was not one single accident or injury to a child at

ending May 24th. Sanchez watched the children as a special watchman, and protected them from all hazards of the roadway.

In addition to this fine record with the children, at one time during his patrol of this section of Uman, when it was still Highway 80, he spotted and was responsible for the arrest of robbers who had stolen a get away car and were making a get away in an automobile traveling through Bay St. Louis.

It gives this newspaper great pleasure to pay tribute to our Chief of Police, Alphonse Sanchez, for diligence beyond the call of duty in protecting the school children of this community.

COACHES PICK OUTSTANDING ATHLETES

Left to right—Tommy Holden, Connie Ripple, and Raymond Strong

**HOLDEN, RIPPLE, AND STRONG
RATED TOPS IN SCHOOL SPORTS**

Two seniors and a sophomore inspired each boy to give his have been selected as outstanding players in their respective sports.

Coach Lance Lumpkin selected Raymond Strong as the outstanding baseball player. Tommy Holden, senior, was selected as the outstanding member of the track and boys' basketball team by Coach Donald Caldwell. Holden was also chosen all De Soto Conference basketball player this year.

This is Raymond Strong's second year on the Bay High baseball team. He plays shortstop and is the team's leading hitter this year.

Coach Caldwell gave the following reasons for his selections. "Tommy Holden was the captain of the basketball team and very capable leader. I think Tommy deserves a great deal of credit for the showing that we made in basketball this season. He kept the team working together and

"In choosing the outstanding track man of the season, one can't help but pick Tommy Holden. This is due chiefly to his versatility. Tommy runs the 100 yard dash, the 440 yard dash and anchors our mile relay team. He also throws the shot putt and discus and broad jumps. Not only does Tommy do all these things but he usually wins or places in most of them.

"I don't think anyone could have selected a better captain and leader of our girls' basketball team than Connie Ripple. Connie has been an outstanding guard for the past three years due to the fact that she hustles every minute of the game scoring points is very important but no one can unless a guard gets the ball to them, and we could all ways count on Rip to get the ball there."

Mr. Ogden pointed out as one of the most important steps in free-lance writing the use of the anecdote and stressed the need for accuracy in stating facts. He also gave as a valuable tip the use of what is known in newspaper circles as the gimmick, or a startling title to the article and explained that a definite lead must be used in the first paragraph to catch the reader's interest. The four basic steps, stated the speaker, for amateur writers are first a good idea; second the approach to an editor through

Pollen Count Going Up!

**New Electronic Air Purifier in 1956
FEDDERS Air Conditioners Trap
Micron-Scale Pollen and Dust**

New York, N. Y. — The electronic system of air filtering used in costly hospital and laboratory equipment now promises to help hay fever sufferers about to withstand their annual siege of sniffles, headaches, and discomfort as pollen count soars in the next week or two.

The advanced filtering system incorporated in new 1956 Fedders Electronic Purifier, Air Conditioners, now available on the market at about the price of standard air conditioners. The new 1956 Fedders models have a separate power supply with transformer and vacuum tube rectifier that charges pollen-laden air with static electricity. Pollen as small as 1/25,000th of an inch is magnetized and trapped against the electronic filtering medium.

300% MORE EFFECTIVE than mechanical filters

As room air is circulated through the Fedders Air Conditioner again and again, virtual freedom from pollen is assured. The new Fedders Electronic Air Purifier system is 300% more effective than mechanical filters used in standard air conditioners. It is available in two sizes, for medium and large rooms.

what is called a query sheet; third, perseverance and fourth "leg work" or the following up of an idea.

He listed people as the most interesting subjects with animals following a close second and incidents or situations as third. He suggested that at least four typewritten sheets be presented for a rotogravure story and that the cutting be left to the editor and begged that a story be brought to a rounded close, leaving it to a dessert after a meal.

In a compelling address in the afternoon session Mrs. Mary Cain, who is a member of the National Penwomen's Association and editor of the Summit "Sun" spoke on the importance in Journalism of a syndicated column springing from the South. She stated that there is not one such column in existence today. The speaker admonished her audience to write the truth always and brushed away the false conclusion of the number of readers who disbelieve what is read in the newspapers, by saying that there are few, if any, "pirates" in the newspaper field.

Mrs. Cain prevailed upon cub writers to study the constitution thoroughly and to use it in endeavoring to keep its convictions before the public gaze through their writings, and closed the dynamic talk with a quotation from Henry W. Grady, whom she referred to as one of the greatest editors of all time.

The meeting was brought to a close by Mrs. Lucille Buck, outgoing president of the group and listed among the guests were Frances Durham of Mobile, Ala.; President of the National League of American Penwomen; Virginia Greer, Vice-President; Rose Marie Clark of Clarksdale, Miss.; President of the League in Miss.; and Mrs. Beth Wallace Slaymaker of Wiggins, Miss.

Local members attending the conference were Mrs. Lloyd Griffith; Mrs. Nan Barrett, Mrs. E. C. Sullivan and Mrs. J. William Hill, Jr.
